Santa Cruz Trek

Santa Cruz Trek is one of the best-known trekking trails in Huascarán National Park. The trek can start from the village of Cashapampa and end in Vaqueria or from Vaqueria to Cashapampa.

The difficulty is moderate because it does involve some relatively tough ascents and descents, but there is nothing that would be considered especially difficult.

The highest point of the trek crosses the Punta Unión pass (4,750 meters above sea level; 15,583 feet). The trail is well-marked and easy to follow, so it is possible to do it independently. However we advise that you do this trek with a professional trekking guide.

Duration: 4 days / 3 nights.

Distance: 45 Km (27 miles).

Highest Point: Punta Unión 4,750 meters (15,583 feet).

Lowest Point: Cashapampa 2,900 meters (9,514 feet)

Difficulty: Moderate

Huascarán National Park

Huascarán National Park covers an area of 340,000 hectares (3,400 Km²), and includes the entire Cordillera Blanca with its 434 lakes and 712 glaciers. It is named as such because of Nevado Huascarán (6,768 meters above sea level) which is the highest mountain in Peru.

Huascarán National Park is part of Huascarán Biosphere Reserve.

Many visitors from around the world travel to Huascarán National Park to spend time in the Cordillera Blanca, mainly to do multiple mountain activities such as; hiking, rock climbing, mountaineering, paragliding, mountain biking, skiing, snowboarding, kayaking and bird watching.

Entrance

Price of tickets to the Huascarán National Park.

	Foreign		Peruvians		Local People***	
	Adults	Children**	Adults	Children	Adults	Children
